C.V.S. LOW COST INSTANT GAME CHANGE

HIGHER INCOME - LOWER COST WITH CENTURY VIDEO SYSTEM

C.V.S. AND YOU

The new British CVS by Century means you can a video unit in the customer areas suited to your needs and change games and flash regularly to keep your income as high as possible. Game changes are so easy and stress, you don't have to move the unit and so you save on time, labour and transport.

HIGH TECHNOLOGY

Britain has led the field in computer authentic technology for decades and Century have great this reputation for you can the research and development facilities to put Britain in total with video game technology. CVS is so advanced, you'll be less than a decade away, that this new video is as exciting as watching a daily television for years to come.

MODERN EFFECTS

The machines are adaptable as they a very wide range of modern effects and high quality graphics are available. Game effects include all action games, and use of computer sound with many words and phrases.

NEW GAMES

CVS users can replace old or broken for each game. These are available and can be replaced while and require no maintenance or programming time as well as maintenance of popular games. Century will produce at least 10 and only new high quality games every year.

CVS WORLD WIDE

CVS has been adopted by manufacturers in U.K., Japan and U.S.A. for world wide sales.

CVS was designed and developed by Century Electronics to fulfil the needs of the future.

CENTURY'S QUALITY DEAL

Century's own units are computerized and finished to a very high standard, they are strong and reliable with good quality coin mechanism and large cash boxes. They will last for generations but to be the most reliable machine. Our friendly service and efficient delivery is second to none. At Century we really use the customer first.
